

ON-TIME COMPLETION RATE FOR EACH PROGRAM AREA

On-time graduation is defined as completing the specified program in a one or two year time period, based on the degree level as reported to SURDS.

Note: The following reduce the On-Time Completion Rates:

1. Many students specify their program matriculation when they first enroll for prerequisite classes that are not included in the definition of the period for on-time completion.
2. Students who do not apply for graduation prior to completing all the requirements will typically not graduate until at least one term later.
3. Students who become employed in their field of study before all graduation requirements are met often postpone completion.

College	CIP	Program	AY 10 Completers	AY 10 On-Time Completers	AY 10 On-Time Completion Rate
