"Otero College is a strong supporter of higher education and encourages everyone to pursue their educational goals. We at the Otero College Nursing Program are proud to partner with Morgan Community College in our quest to provide quality education to nurses so that they may expand their career opportunities, increase their earning potential, and most importantly, improve patient outcomes."

Melissa Root
Director of Nursing & Allied Health
Otero College

"I was hesitant to continue my nursing education after completing the rigorous ADN program, yet I'm glad that I continued while I was still in study mode. The quality of the MCC staff and instruction, as well as the affordability of the program were paramount in my decision to choose MCC."

James Carwin
MCC BSN Graduate
